

The RoverCam 17 Dual Purpose Telescoping Camera System

Use the *RoverCam 17* to get
the right view for your
practice and game video!

- *Move from drill to drill quickly and easily.*
- *Can easily change height from 7' to 17' to give you a lot of flexibility shooting on the field*
- *Use with the Tripod for an End-zone system, or take it off the tripod and move from drill to drill*
- *Can be setup and stored in less than 5 minutes!*
- *Comes with an accessory bag for easy transport.*
- *The camera is powered by the battery at the base, freeing you from having to buy an extended life battery.*
- *Designed to protect your investment (the camera and monitor).*
- *We also have the RoverCam 23 Camera System available!*

THE ROVERCAM 17 TELESCOPING CAMERA SYSTEM

More Features:

Quick release plate for the camera to allow for easy setup, and protection T-bar to allow you to set the ROVERCAM 17 down on the ground!

Electrical Tilt Motor to allow you to tilt the camera up in down, whether shooting from the tripod, or roaming the field!

Adjustable and protected 8 Inch monitor with 450 CD/M2 brightness, provides you with a clear and bright view!

The RoverCam 17 uses industrial locking connectors, making the system more reliable, with fewer points of failure!

Control arm with Zoom, Record and both fast and slow tilt controls make it easy to provide great video control to the coaches!

THE ROVERCAM 17 TELESCOPING CAMERA SYSTEM

More Features:

Light, adjustable tripod, allows you to take the RoverCam 17 in and out easily. You can use the RoverCam17 as a tripod based Endzone system or remove it from the tripod and walk around, shooting drills throughout the field. This makes you truly mobile!

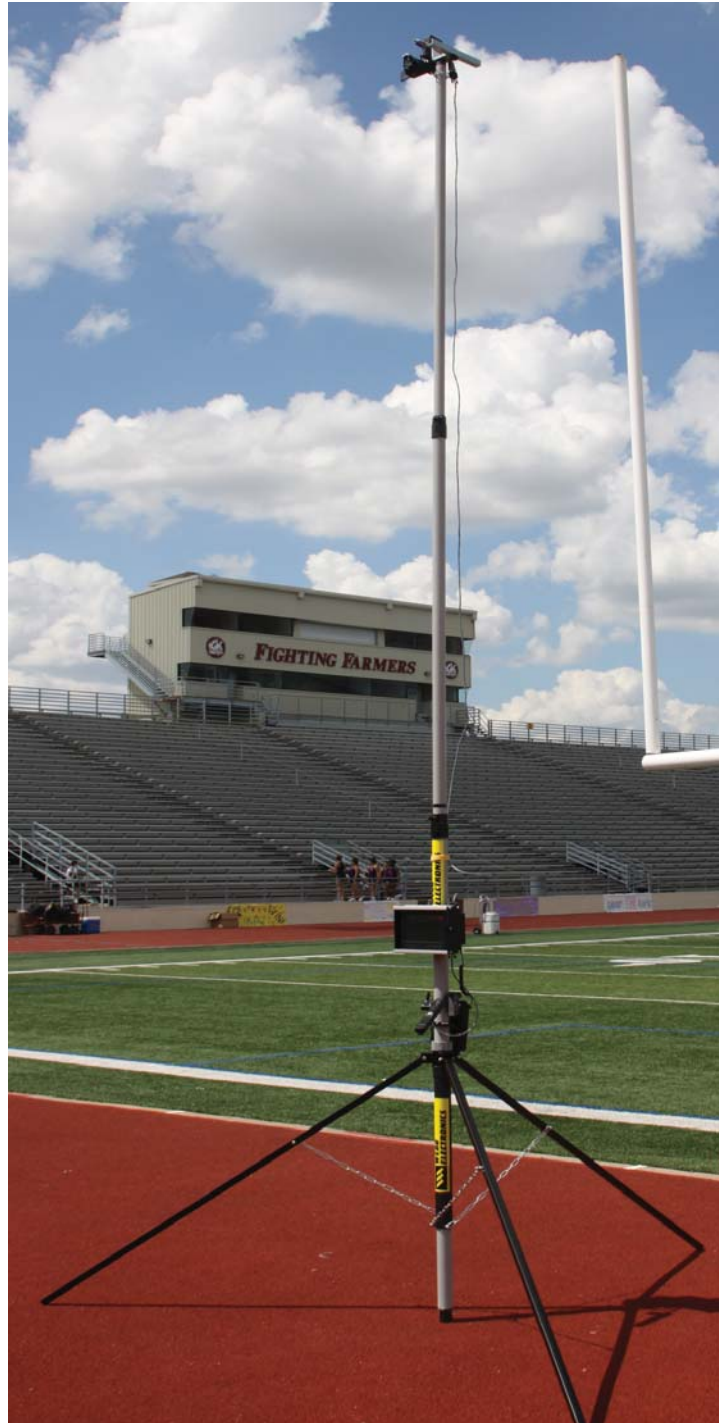

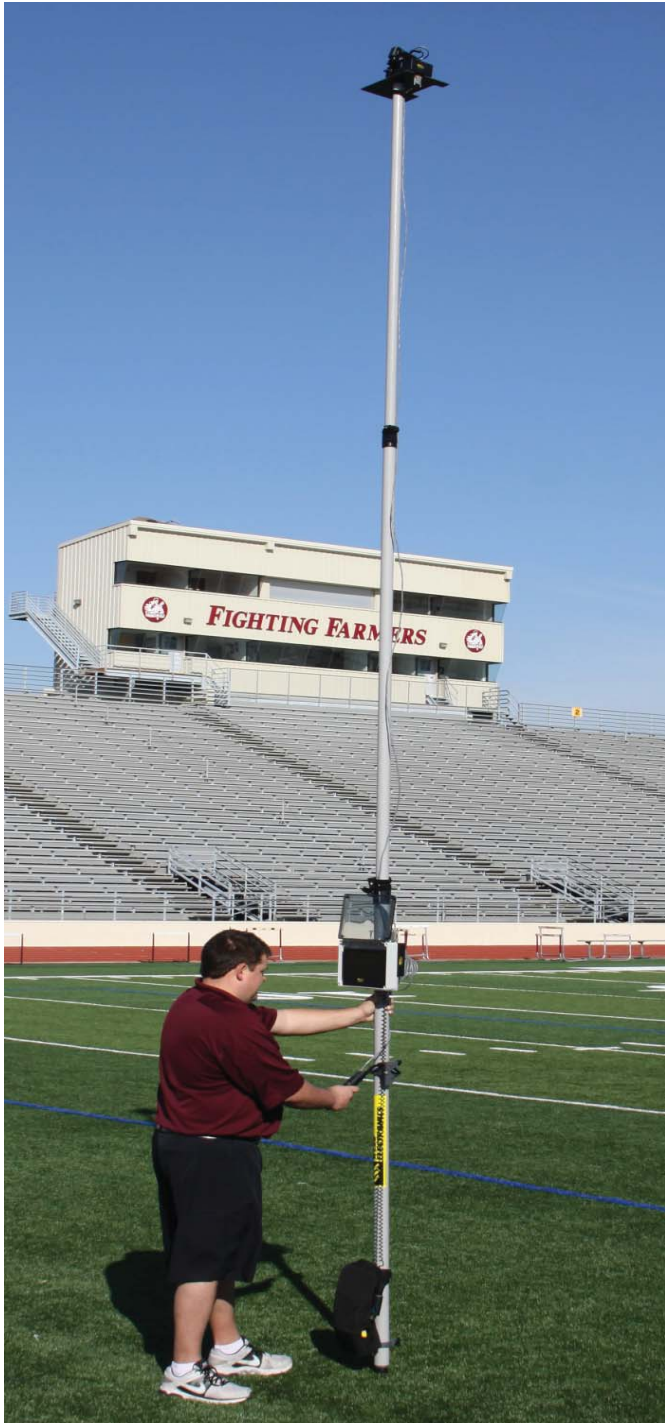

A round rubber foot provides you better tilting of the camera, no sliding and will not scratch gym floors. Ball bearing assembly for a smooth pan motion allows you to get a consistently smooth shot!

Everything is powered by the battery at the base of the RoverCam 17. You don't have to worry about having to use a separate battery for the camera!

Use the RoverCam 17 in the tripod as an Endzone system or take it out of the tripod and roam the field shooting drills! This makes the RoverCam 17 a complete dual purpose camera solution!
